Using your illuminated mirror

Touch controls for power, brightness and light colour.

Tap once

Tap the sensor to switch the mirror light on or off.

Press & hold

Hold the sensor to adjust the brightness.

Double-tap

Tap twice to cycle through the three light colours.

Choose your light colour

Colour temperature (CCT) describes the tone of the light.

3000K
Warm white

4000K
Daylight

6500K
Cool white

30 MINUTES

Built-in demister

Helps keep the heated area of the mirror clear of condensation. It activates with the light button and switches off automatically after 30 minutes.

Lighting styles

Backlit	Light projects from behind the mirror.
Front-lit	Light shines through the front of the mirror.
Diffused edge	A frosted border softens light passing through the front.

Touch controls and demister apply to illuminated models only.
